IP OVER COAX
CONVERTER

CONVERTS SIGNAL FROM ANALOG TO IP WITH PoE

Our **IPCOAX-300M** is a versatile network solution that guarantees reliable transmission over coaxial cables. With a range of up to 800 meters, it offers great installation flexibility. With an impressive bandwidth of up to 100 Mbps, it enables high-speed data transfers. What's more, the converter features built-in surge protection, ensuring your equipment's safety against electrical fluctuations. It can also support up to 20 IP cameras in point-to-point configuration, using coaxial cable power technology for convenient, centralized power supply.

- TRANSMIT UP TO 20 IP CAMERAS
- NETWORK OVER COAX UP TO 800M
- BANDWIDTH UP TO 100MBPS
- BUILT-IN SURGE PROTECTION
- POWER OVER COAX 15.4W
- COMES WITH 48V POWER SUPPLY
