X SERIES PANORAMIC

WIDE-ANGLE PANORAMIC VIEW

Ensure comprehensive monitoring with a 180-degree field of view, eliminating blind spots and providing full area coverage.

ADVANCED AI FEATURES

Our panoramic cameras are equipped with AI-powered analytics for enhanced surveillance capabilities. Benefit from customizable alerts and notifications that provide real-time updates on critical events, ensuring swift responses and proactive security management.

HIGH DEFINITION CLARITY

Capture detailed, high-definition 8MP images. Maintain clarity and visibility even in complete darkness with our TotalView technology, ensuring critical details are captured in full color.

OPTIMIZED EFFICIENCY

Increase operational efficiency with a panoramic camera that reduces the number of cameras needed to cover large areas, cutting down on costs.

DETERRENCE LIGHTS

Enhance security with built-in red and blue deterrence lights, effectively alerting and deterring potential intruders or unauthorized activities.

TWO-WAY COMMUNICATION

Enable seamless communication with the integrated microphone & speaker, facilitating remote interaction and deterrence.
